

Chilean Journalists for Gaza Call October 11 March, Condemn Killings of Palestinian Reporters

El Ciudadano · 10 de octubre de 2025

"Killing journalists is a war crime": Two years on, more than 70 Chilean journalists backing Gaza sign an open letter condemning the killing of Palestinian reporters and call for a march this Saturday, October 11 at 18:00 (Metro El Salvador, Providencia).

Two years after the **genocide in Gaza**, more than 70 Chilean journalists — including National Journalism Prize laureates and union leaders — are urging the public to join a march this **Saturday, October 11 (18:00, Metro El Salvador)**. In a public letter, they **denounce the killing of Palestinian journalists**. The call, led by the **Journalists for Palestine Bloc**, underscores the right to report and the duty to remember.

The letter states, among other points:

«Killing journalists is a war crime.»

«Reporting from a single source — especially the aggressor — is not journalism; it is propaganda.»

Chilean Journalists for Gaza: open letter, denunciation, and the October 11 march

Signatories include **Faride Zerán**, **Mónica González**, **María Olivia Monckeberg**, **Sergio Campos**, **Delia Vergara**, **Patricia Stambuk**, and **Abraham Santibáñez**; media figures such as **Amaro Gómez-Pablos**, **Rafael Cavada**, **Alejandra Matus**, and **Juan Cristóbal Peña**; and union leaders including **Rocío Alorda** (Colegio de Periodistas) and **Patricia Alrringo** (Asociación Nacional de Mujeres Periodistas). Also among the signers are media directors: **Pedro Ramírez** (CIPER), **Javier Martín** (Agencia EFE Chile), **Víctor Hugo de la Fuente** (Le Monde Diplomatique Chile), and **Javier Pineda Olcay** (El Ciudadano).

The letter challenges the information blackout in Gaza and criticizes the uncritical repetition of official narratives. The signing organizations — **Colegio de Periodistas**, **Sindicato Litoralpress-Simbiu**, and the **Red de Periodistas Migrantes** — stress that responsible coverage requires a plurality of sources, protections for the press, and a clear rejection of violence.

«Silence, neutrality, or omission in the face of a genocide are not journalistic positions but forms of complicity,» the letter by journalists and media directors asserts.
