The Chilean Committee for Solidarity with Palestine – JGMxPalestina, along with the Local Committees of the University of Chile, made a «formal, broad, and united» appeal to all institutions, collectives, social organizations, student centers and federations, territorial groups, labor unions, football fans, and anyone who passionately supports the Palestinian cause, inviting them to actively participate in the march for International Solidarity with the Palestinian People.

The event is scheduled for Saturday, November 29, at 6:00 PM, starting from the Salvador Metro station in the capital, Santiago.

In the announcement, the organizers expressed that «in a moment when the Palestinian people face sustained aggression, with the continuation of bombings (despite the ceasefire), occupation, and systematic violations of human rights, international solidarity becomes an unavoidable ethical responsibility.»

«From Chile, and particularly from our student and popular spaces, we raise a strong voice to denounce the crimes of Israeli apartheid and to demand the immediate end of violence, respect for international law, and the guarantee of freedom, justice, and self-determination for Palestine,» the statement adds.
