

Esta cuenta de Instagram tiene las mejores fotografías de auroras boreales

El Ciudadano · 19 de enero de 2016

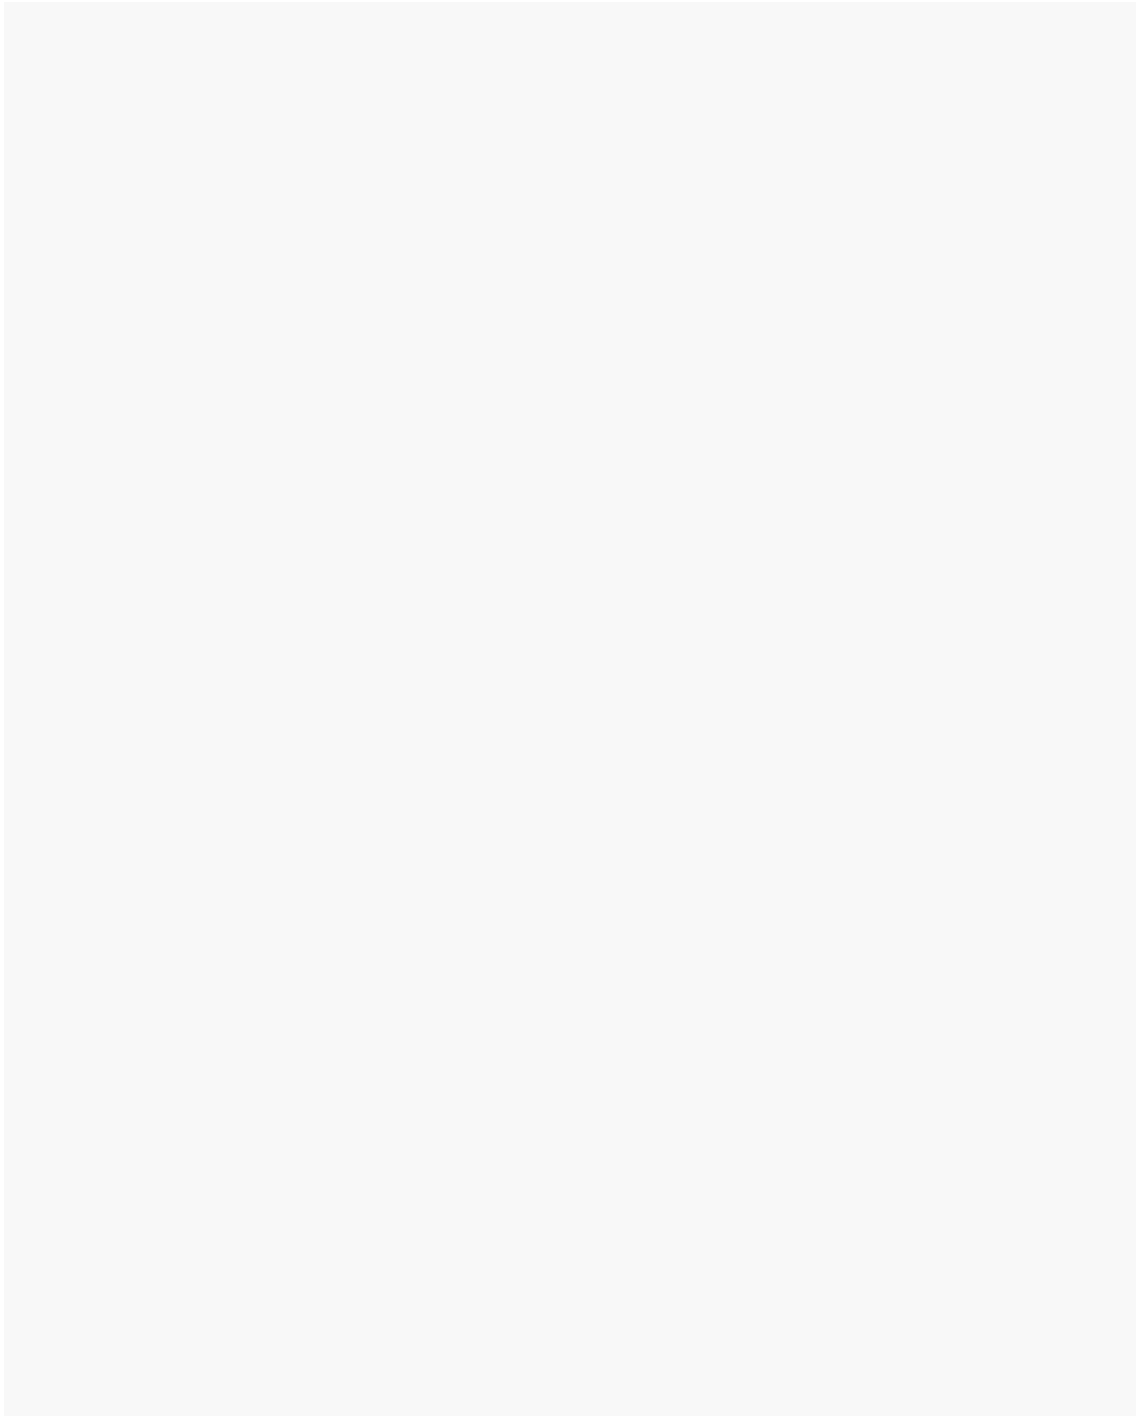

Las auroras boreales sólo pueden observarse de noche en las regiones polares del hemisferio norte entre septiembre y marzo. Uno de los mejores lugares del mundo para observar este espectáculo es Noruega, país del que es originario el fotógrafo [Stian Klo](#), quienes ha realizado las siguientes fotografías:

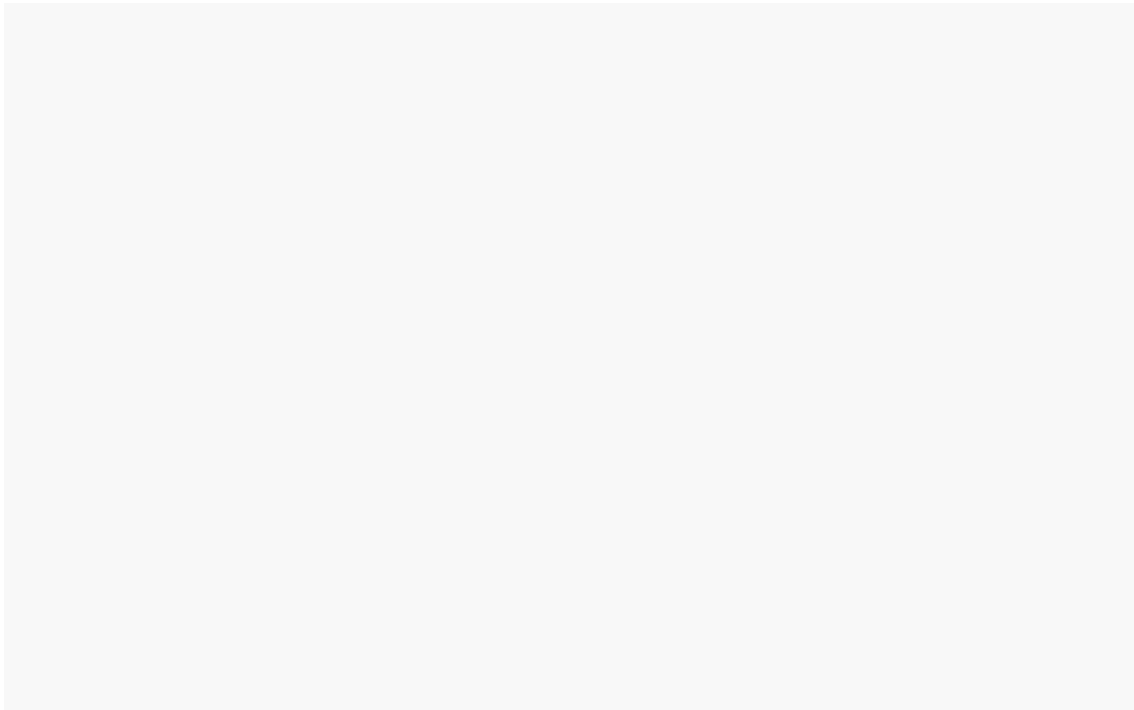

DM me your email adress if you are interested in attending one of my upcoming Northern Lights photography tours in the Arctic Lofoten islands, Norway with @arildheitmannphotography ?

Shoutout to my brother from another mother – the Norwegian Aurora whisperer
@arildheitmannphotography who likes to draw male genitalia on snowy car windows! ?
Credit him if sharing!

Northern Lights photography workshops in Arctic Lofoten, Norway with
@arildheitmannphotography and yours truly ? www.lofotentours.com – Early bird
discounts available on all tours marked as «new» !

Una foto publicada por Stian Klo (@stianmklo) el 4 de Ene de 2016 a la(s) 12:19 PST

Tonight @arildheitmannphotography and I will publish our new Lofoten tours/workshops website. Early bird discounts are available – PM me if you want to learn more before it all goes online.

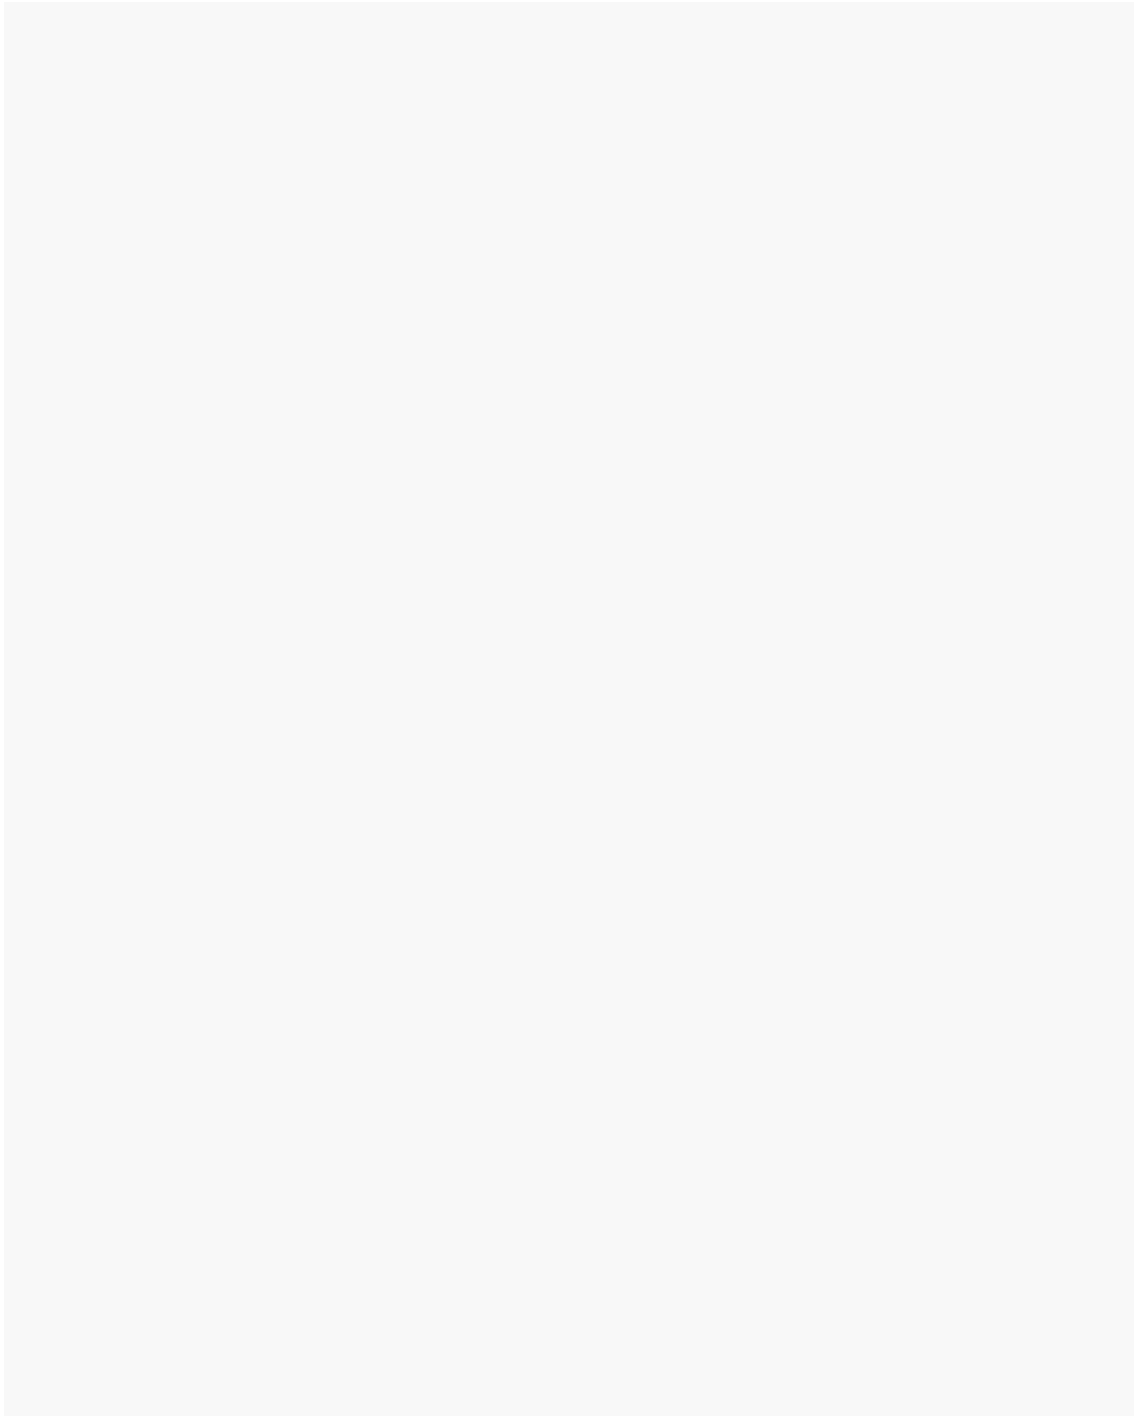

Una foto publicada por Stian Klo (@stianmklo) el 3 de Ene de 2016 a la(s) 1:38 PST

Wow! Apparently these nine images of mine are your favorites of 2015 – close to 2 million likes on Instagram alone is just ridiculous (average of more than 5300 per post)! Thank you so much ? Your continued support and feedback is what keeps me motivated. 2016

holds a lot of promise, can't wait to share the news soon! Vikinghugs ?? #instagram
