El Ciudadano · 14 de diciembre de 2015

«War and peace» – New series bu #GunduzAgayev This is the new series by Gunduz Agayev. In the past men created a God of #war and blamed mythic Gods for the wars. However, throughout the #history only men were responsible for all the bloodshed. Alas,

many of us still do not understand this and want to evade the responsibility. War is a #death, a #suicide. #Nations massacre one another and the whole mankind. Nevertheless, men are able to inhibit this plague. Fortunately, men also invented #peace. It is a way of struggle against war. It must be every man's duty before #humanity to continue this struggle. #Azerbaijan #art #draw #illustrations
